DETAILED ACTION

The amendment filed on 24 March 2004 has been entered.

Allowable Subject Matter

1. Claims 16-20 and 26-32 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claims 16, 26, and 30, the prior art of record neither shows nor suggest a method of producing a discharge lamp with electrodes formed by, in part, a cutting step for cutting the formed n layers of coils and the core member to provide a flat tip surface', a removing step for removing the core member after the cutting step; and a rod inserting step for inserting an electrode rod into a space from which the core member has been removed, the electrode rod being made of refractory metal, along with the limitations of the claims.

Due to their dependency, claims 17-20, 27-29, and 31-32 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
